

Institute of Theoretical and Applied Physics

Turunç - Marmaris - TURKEY

ITAP Sponsorships for the international participants of the Solar4Peace <http://itap-tthv.org>

Mission of ITAP: Located in Mediterranean Eurasia on the geographical and cultural crossroads between the East and the West, the South and the North, ITAP aims at establishing an international environment of interaction in scientific research and training in all natural sciences with particular emphasis on most current research topics in theoretical and applied physics and mathematics and the corresponding interdisciplinary fields between the international senior scientists, young researchers and research students. ITAP is the only NGO in Turkey devoted to professional research and research training in theoretical and applied physics.

ITAP Sponsorships: In accordance with ITAP's international agreements with the Institute of Physics of the Chinese Academy of Sciences, Academia Sinica of Taiwan, Asia Pacific Center for Theoretical Physics in Korea, Georgian National Academy of Sciences and Bulgarian Academy of Sciences, the 3-day local accomodation expenses of the highly qualified students and young researchers from China, Taiwan, Korea, Georgia and Bulgaria will be fully supported during their stay in İstanbul. No travel support is to be provided. The applicants can apply for travel funding at the corresponding institutions in their country.

Condition for the sponsorship: The local support for those international participants from the countries above is provided if the applicant also attends the follow-up International Summer School and Workshop on Physics and Chemistry of Solar Energy to be held at ITAP/Turunç/Marmaris/Turkey between 24-30/August/2013. The sponsorships for the selected applicants of the Solar4Peace will be continued during their stay at ITAP. No travel support can be provided between İstanbul and Marmaris.

How to apply: The applications will be made through ITAP online international application procedure at:

http://itap-tthv.org/applforms/application_form.php

which can also be reached from the main ITAP web page: <http://itap-tthv.org>

In your application, please select the ITAP 2013 summer school program entitled International Summer School and Workshop on Physics and Chemistry of Solar Energy and mention that you would like to attend the Solar Energy for Peace conference as well. The selection procedure will be made by ITAP and the applicants will be informed within the following week of May/31/2013.
